National Thanksgiving

BY THE PRESIDENT.

In conformity with a custom, the annual observance of which is justly held in honor by this people, I, Chester A. Arthur, president of the United States, do hereby set apart Thursday, the 30th day of November next, as a day of public thanksgiving.

The blessings demanding our gratitude are numerous and varied. For the peace and amity which subsist between this Republic and all the nations of the world; for freedom from internal discord and violence; for the increasing friendship between the different sections of the land; of liberty, justice, and constitutional government; for the devotion of the people to our free institutions and their cheerful obedience to mild laws: for the constantly increasing strength of the Republic while extending its privileges to fellowmen who come to us; for the improved means of internal communication and the increased facilities of intercourse with other nations; for the general prevailing health of the year; for the prosperity of all industries, liberal return for mechanics' toil, affording a market for the abundant harvests of the husbandman; for the preservation of the national faith and credit; for wise and generous provision to effect the intellectual and moral education of our youth; for the influence upon the conscience of restraining and transforming religion, and for the joys of home; for these, and for many other blessings, we should give thanks.

Wherefore, I do recommend that the day above designated be observed throughout the country as a day of national thanksgiving and prayer, and that the people, ceasing from their daily labors, and meeting in accordance with their several forms of worship, draw near to Almighty God, offering to Him praise and gratitude for the manifold goodness which He has vouched to us, and praying that His blessings and His mercies may

thus appointed be made a special occasion for deeds of kindness and charity to the suffering and needy, so that all who dwell within the land may rejoice and be glad in this season of national thanksgiving.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

With all their losses, it is now certain that the Republicans have not lost the Legislature in a single Republican state where a United States Senator is to be elected.

To those Republicans who seem to be despondent over the result of the late election we commend the following from the celebrated Cooper Institute speech of Abraham Lincoln in February, 1860: "Let us have faith that right makes might, and in that faith, let us to the end, dare to do our duty."

The Vicksburg, Mississippi, Herald is a very ardent free trader and is very happy over the Democratic House, but it will be less ecstatic when the House refuses, in the hope of winning a few additional votes in 1884, to appropriate from 3 to 5 million dollars for the improvement of the Mississippi river, as it is almost sure to do.

We note with peculiar pleasure that Hon. George H. Hopkins, of Detroit is a candidate for Speaker of the Michigan House of Representatives. Mr. Hopkins has been for the 3d time in succession elected a member of the House from the Democratic city of Detroit, is a young man of decided ability, a fine presiding officer and would preside in the House with all the dignity and impartialty of a Coswelll, than which more cannot be said of any man. Should he be elected, it is certain the committee of the House would be constituted in such a manner as to meet the approval of the House, fairly represent all the varied industries of the state and make sure that all the wants of the people in the social, moral and educational fields, receive the attention their merits de-And I do farther recommend that the day mand. The reports to the leading commercial journals in the country show the state of the trade in the country during the past week was quite satisty-fifth day of October, in the year of our Lord factory the only exception being in one thousand eight hundred and eighty-two, the iron trade, in which a decline in prices has caused much despondency and several large establishments, employing many thousand men, especially those engaged in the manufacture of Bessimer steel, are disposed to shut down and thus throw thousands of men out of employment. The decline is attributed somewhat to the having by proclamation set apart falling off in railroad enterprises, a Thursday, Nov. 30, 1882, as a day of business that has beyond doubt been public thanksgiving throughout the very largely overdone. The exports of cotton at the present time is considered larger than it was a year ago, but the price is about two cents a pound less, which may partially account for the activity of export trade in this staple. The live stock market is lively and prices are better sustained than it was generally anticipated they would be, and some of the shrewdest operators are holding off, looking for a The so called Independent press is unanimous in the expression of the opinion that the Republican party in the near future, which to day tends to keep up prices.
